BOTTLED AT THE SPRING.

Pine Lawn Spring Water.

CHEMICAL ANALYSIS:

FRASER & CO., 262 Fifth Avenue, *Analytical Department.*
E. E. SMITH, Ph.D., *Director and Physiological Chemist.*
RUDOLF DEROODE, Ph.D., *Analytical Chemist.*

Drawn June 15th, 1897. • Examined June 17th to 25th.

BACTERIOLOGICAL EXAMINATION.

FERMENTATION TEST, - NEGATIVE. PUTREFACTIVE TEST, - NEGATIVE.

MINERAL CONSTITUENTS AS THEY EXIST IN SOLUTION:

	Grains in U. S. Gallons.		*Grains in U. S. Gallons.*
Potassium Sulfate,	0.063	Calcium Carbonate,	2.043
Sodium Chlorid,	0.429	Magnesium Carbonate,	0.716
Sodium Sulfate,	0.316	Alumina,	Trace.
Calcium Sulfate,	0.488	Silica,	0.574
Calcium Nitrate,	0.659		

The examination of this water shows: *A*—No evidence of pollution. *B*—The presence of only a small amount of mineral matter. The water is, therefore, an exceptionally pure, potable water, and is recommended for drinking.

(Signed) FRASER & CO.

Put up in 5-Gallon crated bottles, and half-gallon bottles, 10 in case; also in quarts and pints carbonated.

Dr. McMunn's Elixir of Opium.

An Invaluable Discovery in the Preparation of Opium.

It contains all the valuable medicinal properties of Opium in natural combination to the exclusion of all its noxious, deleterious, useless principles upon which its bad effects depend. It possesses all the sedative, anodyne, and antispasmodic powers of Opium: To produce sleep and composure; to relieve pain and irritation, nervous excitement and morbid irritability of body and mind; to allay convulsive and spasmodic actions, etc.; and being purified from all the noxious and deleterious elements, its operation is attended by no sickness of the stomach, no vomiting, no costiveness, no headache, nor any derangement of the constitution or general health. Hence its high superiority over Laudanum, Paregoric, Black Drop, Denarcotized Laudanum, and every other Opiate preparation.

CAUTION.

On account of the large sale, spurious articles are offered in bulk. The genuine is sold only in vials of about 7 drachms, with yellow wrappers and signature of Jno. B. McMunn.

Miss Alston's House,

143 West Forty-seventh Street,

Formerly 106 East Thirty-fourth Street,

New York.

Miss A. L. ALSTON, for nearly eight years Superintendent of Mount Sinai Training School for Nurses, opened in September, 1894, a house for the reception of private patients. Being unable to supply the demand for rooms a large house has been fitted up with all modern improvements, elevator, etc., which will materially add to patients' comfort. All classes of patients, male and female (including maternity cases) will be received, except patients suffering from contagious diseases or insanity.

Miss Alston's long and thorough experience will insure the best of nursing and general supervision for those who are in her charge. Great attention will be paid to the careful and appetizing preparation and serving of the food. As the number of rooms in the house is limited, meals will be served in the patient's room.

Long distance telephone in the house.

For circulars and information inquire at above address.

The house will be open the entire year.

COCA WINE (METCALF)

has been so long before the medical profession, has proven so popular with them where Coca is indicated, that it almost seems unnecessary for us to call your attention to it. Ringer recommends coca leaves as valuable in febrile diseases by restraining tissue metamorphosis. He also suggests for the same reason that it would prove of value in the treatment of phthisis.

It has decided anodyne and anti-spasmodic qualities. It has been employed in phthisis, scrobutus, gastralgia, anemia, enteralgia, and to assist in the process of digestion. Coca Wine (Metcalf) is prescribed for public speakers, singers, and actors as a valuable tonic to the vocal cords, while at the same time displaying a sedative action, allaying nervous fright, without perceptible after-effects.

Coca Wine (Metcalf) is agreeable to the taste and can be prescribed with great advantage during convalescence from various acute diseases.

Our Standard Preparations.

COCA WINE—Metcalf,
LIQUOR PANCREATICUS,
KOLA KOLOID,
KOLA TABLETS,
ANTACIDINE TABLETS,
QUINACETINE SULPHATE,
SYRUP SEVEN HYPOPHOSPHITES,
WINE AMERICAN ASH,
COCA-MALTOL,
BURNETT'S COD LIVER OIL,
ANTISEPTIC SPRAY,
EUCALINE,
ANTISEPTIC POWDER.

It has been found to be a reliable aphrodisiac for elderly people, in fact, superior to any other drug.

Its stimulating and anodyne properties combined, it acts without debilitating.

How to overcome two main difficulties in obtaining

"DR. DADIRRIAN'S MATZOON"

.....in its Best Condition.

To Obtain in Fresh Condition:—Although my wagons stop at all the principal druggists at short intervals and keep their stock of Matzoon constantly in fresh condition, patients occasionally come across drug stores where they obtain Matzoon in an unsatisfactory condition. Such cases, if reported to my office by the prescribing physician or the patient, will receive prompt attention.

To Obtain the Genuine Matzoon: — When the merit of my Matzoon became known, several imitations were put upon the market here and in several other States, causing great disappointment to the physicians and their patients. As the litigation against infringers which I have been carrying on for several years has not as yet been concluded as to all the infringers, it will be safe in ordering and prescribing to **always** specify **Dr. Dadirrian's** Matzoon.

"VIN SHARTONE"

Dr. Dadirrian's

TONIC WINE.

A Combination of the Best Quality of Cinchona Bark with a Choice Old Wine.

We submit this new preparation to the medical profession as something different from the Wines and Elixirs which are generally made from the alkaloids and extracts of the bark. After long personal study and experiments with different Wines and Elixirs, and after suggestions from some of the leading members of the medical profession, we have made a compound of the true Cinchona Bark with a very select old wine in such proportions as to produce in Vin Shartone a most effective Tonic, entirely free from the pernicious after-effects that accompany many of the so-called Tonic Wines now in use.

Vin Shartone is principally indicated in Wasting Diseases, Retarded Convalescence, Impaired Assimilative Power, Languor, Indigestion, La Grippe, Exhaustion, Malnutrition, and general prostration. It is Antipyretic and Antiperiodic in a marked degree in all cases of Fever, Influenza, Malaria, and in all acute and inflammatory conditions; and it is especially suitable as a general Tonic for elderly persons and children.

Vin Shartone for obvious reasons may also be indicated as a valuable adjuvant in the treatment of MALARIAL DISEASES, both as a preventive and cure.

VALUABLE AS AN APPETIZER.

Dose:—A half wineglassful or one ounce (each dose containing 8 grains of the bark) 3 to 4 times daily, as indicated.

PREPARED BY

Dr. M. G. Dadirrian & Son

73 Lexington Avenue, New York.

Samples of Vin Shartone will be sent on application.

The Attention of Physicians

is respectfully solicited to this make of Sanitary Underwear. Being composed of the very finest Australian natural wool, free from dye, of remarkably fine texture, it possesses qualities which render it particularly beneficial for delicate individuals, as it is of so smooth a surface, and so finely, closely knit, that it is warm without being heavy or bulky, and the smoothness of its surface prevents irritation of the cuticle, so objectionable in some makes of wool underwear.

Mattelutz Steam-Shrunk Sanitary Underwear

is made not only in all wool fabrics, but the same fine tissue is also made with an admixture of cotton. The Mattelutz Sanitary Underwear is made in the neighborhood of Stuttgart, Württemberg, a locality famous for the production of fine knit wool fabrics. This underwear is **STEAM SHRUNK**, and, consequently, with ordinary care in the laundry, will be found practically unshrinkable. The Medical Society can with confidence recommend these garments to their patients, and we respectfully present them to their kind consideration.

CARABAÑA?

CHARLES GREENE CUMSTON, B.M.S., M.D., of Boston, says in the *Medical News*, Dec. 28, '95, in an article on "Vaginal Hysterectomy":

"The preparation of the patient is very important. . . . The bowels should be moved every day by means of a wineglassful of CARABAÑA WATER, taken just before breakfast.

"This particular water is *par excellence* the one that should be employed, as it acts upon the entire digestive system in a most admirable manner."

ONE LITRE OF CARABAÑA WATER CONTAINS:

Sulphate of Soda		100.1110 gr.
Sulphuret of sodium		0.0499 "
Sulphate of magnesia		3.0711 "
Chloride of sodium	2 gr. 28	1.6000 "
" of magnesium		0.4774 "
" of calcium		0.1967 "
Phosphate of soda		0.0210 "
Alumina		0.0005 "
ANHYDROUS SALTS		106.0826 gr.

It is Purgative by its Sulphate of Soda.

It is Depurative by its Sulphuret of Sodium.

It is Antiseptic by its Chloride of Calcium.

HIGHLAND WATER

From LEWISTON, MAINE,

Is the best Tonic, Diuretic, Solvent, and Eliminator of Uric Acid:

1. Because it is the softest and purest water known, containing no excess of mineral salts and no lime or organic impurities, being therefore non-irritating to the digestive organs and kidneys.
2. Because it contains Iron in combination with the alkalies, Sodium and Potassium in small quantities, as recommended by Profs. Flint, Thomson, Draper, and others.
3. Because it comes from a region free from malarial germs.
4. Because all its mineral salts, and five of them in the exact form given in its analysis, are found in the human blood, of which they form a most essential part.

Analysis—Each gallon contains

Carbonate of Iron,	1.100 grs.
Oxide of Iron,	0.310 "
Chloride of Sodium,	1.000 "
Sulphate of Soda and Potash,	0.310 "
Carbonate of Soda and Potash,	0.831 "
Carbonate of Magnesia,	1.230 "
	4.781 grs.

Sold in glass only. It may be obtained from Grocers and Druggists generally, or from the

Protonuclein stimulates the nutritive functions, increases resistance to disease, promotes glandular secretion, restores tone to the system; cell-life throughout the organism is stimulated and health augmented.

Prepared in three forms: Protonuclein Tablets, and Powder for internal use, and Protonuclein Special Powder for local use.

Trophonine. A Palatable and Highly Nutritious Liquid Food.

It is a combination of animal and vegetable proteids with the enzymes from all the digestive glands and the nucleo albumins of the lymphoid structures, thus furnishing at one time the material for metabolization, and the stimulant to functional activity. It is wholly absorbed and leaves no residue to ferment, or furnish pabulum for the development of pathogenic micro-organisms.

Peptenzyme. A Perfect Digestant.

Peptenzyme is the only preparation which contains the active and latent ferment principles from all of the digestive glands, and in the same condition as they exist in nature, consequently it is of greater value in the treatment of all the digestive disorders than any other agent.

Peptenzyme is prepared in three forms: Tablets, Powder and Elixir.

Crosby's Vitalized Phosphites

ARE identical in composition to the phosphoid principle of the brain, the nerves, the higher organs of animal life, the germ of wheat, and the pollen or fertilizing element of plants. They constitute a special and essential food for the nourishment of brain and nerves, they supply elements requisite to maintain the normal nerve force and vital energy of the brain.

Their use is indicated in mental and nervous exhaustion, in convalescence from serious, wasting diseases, in typhoid, scarlet, and other fevers, in pneumonia, bronchitis, in fractures, and after surgical operations. Their use in all cases can be recommended with safety, and positive assurance of success.

Vitalized Phosphites is a highly concentrated dry extract (*powder form*), formulated by Prof. Percy upwards of thirty years ago. Prepared only by F. Crosby Co., 56 West 25th St., New York. For sale by leading druggists, None genuine without this signature F. Crosby Co.

Beware of imitations. Descriptive pamphlets will be mailed on application to above address.

Entered according to Act of Congress in the year 1898, by Daniel Lewis, in the office of the Librarian of Congress at Washington, D. C.

PREFACE.

The names of the physicians of the greater city have been arranged in the various Boroughs except those of Manhattan and the Bronx, which have been combined in one list as in former years.

The division of the lists into members of the County societies and those who are not members has been continued, as those most interested in the Directory are convinced that the advantages of this arrangement are many and important. In looking for a name, *first* consult the County society list, and if not found, it will be in the Non-County list. The street list of physicians contains *all names*, and is valuable for addressing letters, circulars, etc.

The advertising pages have been carefully scrutinized, and although no endorsement of advertised products or institutions is implied by the acceptance of any advertisement by the editor, it is intended that nothing unreliable shall ever appear in this department.

Much valuable information has been received from individual members of the profession regarding new names, deaths and removals, which the editor hereby desires to acknowledge.

diseases and cases of Habit.

Voluntary and committed patients received ; number limited to ten.

Vernon House is fifteen miles from New York City, on a high elevation overlooking Long Island Sound and the Palisades, and surrounded by attractive grounds both open and shaded, beautiful scenery and charming drives.

While strictly private, with homelike surroundings and entire absence of all institutional features, the importance of medical care is kept prominent and facilitated by every appliance for scientific treatment.

Only nurses thoroughly trained are employed.

Forty-six trains daily from the Grand Central station via Harlem R.R.

Arrangements for the reception of patients may be made by telephone day or night.

EXTRACTS FROM THE BY-LAWS OF THE MEDICAL SOCIETY OF THE COUNTY OF NEW YORK.

"The annual meeting of the Society shall be held on the fourth Monday in October.

"Stated meetings shall be held on the fourth Monday of every month, except in the months of June, July, August and October.

"Nominations for the officers, censors and delegates, to be elected at the annual meeting, shall be made at the stated meeting in September.

"Members whose dues are unpaid shall not be candidates for any official position in the Society, nor shall they be entitled to vote.

"Every candidate, before signing the By-Laws, shall be required to pay an initiation fee of two dollars, together with the current dues, within three months from the date of his election.

"The Comitia Minora shall recommend no applicant for admission to membership unless he be a graduate from a medical college in good standing or a licentiate of a regular unsectarian State or County Medical Society of this or any other State; or, if his diploma or license be of sectarian character, unless the applicant declares in writing his or her abnegation of sectarian principles and practice."

Resolution adopted October 28th, 1889.

"*Resolved*, That, hereafter, members two years or more in arrears of dues shall have their names omitted from the published list of this Society; and that, while thus in arrears, such members shall receive neither the notices of the Society's meetings nor its publications."

Doctor:

We respectfully invite your attention to the fact that the Battle Creek Sanitarium is a good place for those cases of chronic indigestion, neurasthenia, insomnia, gastric and intestinal catarrh, constipation, and pelvic disorders which do not yield to the usual measures capable of employment at home.

The advantages afforded by a first-class physiological laboratory for the investigation of stomach disorders, blood examinations, etc., an admirably equipped diet kitchen, a scientifically conducted gymnasium, elaborate and elegant facilities for scientific hydrotherapy, steam heated, thoroughly ventilated buildings, three hydraulic elevators, a corps of twenty thoroughly trained physicians, 250 nurses, a salubrious location—offer an exceptionally favorable opportunity for the successful treatment of chronic invalids of all classes.

Sanitariums under the same management are located at St. Helena, Cal.; Boulder, Col.; Guadalajara, Old Mexico; and Chicago, Ill.

New Nut Products.

Nuts furnish an essential constituent of vegetarian diet. In their natural state, they are difficult of digestion, and can not be used by many persons; but the Sanitas Food Co. has discovered a method for rendering nuts easily digestible by even the most delicate stomachs.

Nuttose

Is a pure product of nuts, of the consistency of cheese, and has somewhat the appearance and flavor of cold roast mutton. It may be used in a variety of ways, and is a perfectly healthy substitute for cold sliced meat.

make Fat and Blood.

Bromose

Makes fat and blood. This product is made by malting nuts, and is especially useful as a food for persons who can not digest starch.

Send 25 cents in stamps for samples. Circulars supplied on application. Address:

A New Food for . . . Diabetics.

THERE is probably no single dietetic need which has received more attention, with fewer satisfactory results, than the preparation of a bread for diabetics.

We have at last solved this difficult problem by producing a bread made by combining pure gluten and nuts.

We shall be glad to send free samples to any physician or trained nurse who may desire to test this new food. Others will please send a two-cent postage-stamp.

Infant Feeding.

EXCEPT that derived from the *healthy* mother's breast, the best food for an infant is the milk of *healthy* cows, if these animals receive proper food and care.

EVERY common-sense detail that it is possible to observe is practiced in Dr. Brush's milk dairy. Nothing but the whole grist of the best grain—no refuse of any description—is used as food. All the care and attention to the cows is given with an intelligent desire to produce good milk.

IT is delivered in New York City at 15 cents per quart; orders addressed to me will receive prompt attention.

E. F. BRUSH, M.D.,
Mount Vernon, N. Y.

"I am constant as the northern star,
Of whose transfix'd and resting quality
There is no fellow in the firmament."
—*Julius Cæsar.*

THERE are few useful products that have been more numerously and less successfully imitated than

"BRUSH'S KUMYSS."

THE same word, often the same lettering as directions on the label, the same colored ink, and sometimes a device that imitates closely the trade-mark, may cover a base imitation.

Only the word "BRUSH" will make your order definite.

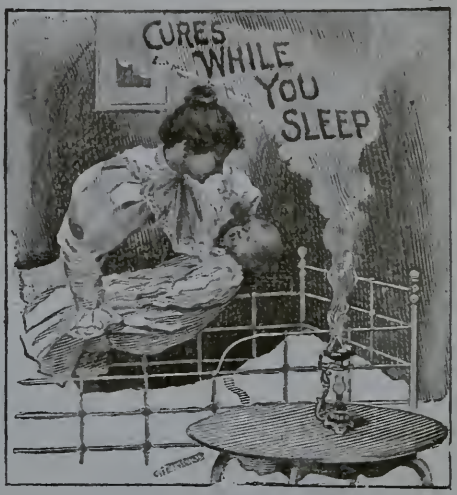
Vapo-Cresolene



For Whooping Cough, Croup, Colds, Coughs, Asthma, Catarrh, Bronchitis, Hay Fever.

Cresolene is a product of coal tar, the odor of which is not unpleasant. When vaporized in the sick room will give immediate relief. Cresolene may be inhaled for any length of time without harm to the youngest child.

Items from physicians' statements in our Descriptive Booklet. Send for it.

"Have found it of such great value in Whooping Cough, Croup and other spasmodic coughs, that I have instructed every family under my direction to secure one" "It is of great value in Diphtheria." "It gives relief in Asthma. The apparatus is simple and inexpensive."

The vaporizer is six inches high and vaporization is effected by means of a kerosene lamp.

Vaporizer with Cresolene, $1.50;
Cresolene, 2-oz. bottle, 25 cents; 4-oz., 50 cents.

For sale by druggists generally.

EXAMINATIONS FOR LICENSE TO PRACTICE MEDICINE.

LAWS OF NEW YORK, 1893, CH. 661; § 145 ADMISSION TO EXAMINATION, AS AMENDED BY LAWS OF 1896, CH. 111, IS AS FOLLOWS:

The regents shall admit to examination any candidate who pays a fee of $25 and submits satisfactory evidence, verified by oath, if required, that he

1. Is more than 21 years of age;
2. Is of good moral character;
3. Has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State;
4. Has studied medicine not less than four full school years of at least nine months each, including four satisfactory courses of at least six months each, in four different calendar years, in a medical school registered as maintaining at the time a satisfactory standard. New York medical schools and New York medical students shall not be discriminated against by the registration of any medical school out of the State, whose minimum graduation standard is less than that fixed by statute for New York medical schools. The regents may, in their discretion, accept as the equivalent for any part of the third and fourth requirement, evidence of five or more years' reputable practice, provided that such substitution be specified in the license;
5. Has either received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practice medicine in some foreign country. The degree of bachelor or doctor of medicine shall not be conferred in this State before the candidate has filed with the institution conferring it the certificate of the regents that before beginning the first annual medical course counted toward the degree unless matriculated conditionally as hereinafter specified (three years before the date of the degree), he had either graduated from a registered college or satisfactorily completed a full course in a registered academy or high school; or had a preliminary education considered and accepted by the regents as fully equivalent; or held a regents' medical student certificate, granted before this act took effect; or had passed regents' examinations as hereinafter provided. A medical school may matriculate conditionally a student deficient in not more than one year's academic work or 12 counts of the preliminary education requirement, provided the name and deficiency of each student so matriculated be filed at the regents' office within three months after matriculation, and that the deficiency be made up before the student begins the second annual medical course counted toward the degree. Students who had matricu-

lated in a New York medical school before June 5, 1890, and students who had matriculated in a New York medical school before May 13, 1895, as having entered before June 5, 1890, on the prescribed three years' study of medicine, shall be exempt from this preliminary education requirement.

A medical student certificate may be earned without notice to the regents of the conditional matriculation either before the student begins the second annual medical course counted toward the degree or two years before the date of the degree for matriculants in any registered medical school, in the four cases following:

1. For matriculants prior to May 9, 1893, for any 20 counts, allowing 10 for the preliminaries, not including reading and writing;

2. For matriculants prior to May 13, 1895, for arithmetic, elementary English, geography, spelling, United States history, English composition and physics, or any 50 counts, allowing 14 for the preliminaries;

3. For matriculants prior to January 1, 1896, for any 12 academic counts;

4. For matriculants prior to January 1, 1897, for any 24 academic counts;

But all matriculants, after January 1, 1897, must secure 48 academic counts, or their full equivalent, before beginning the first annual medical course counted toward the degree, unless admitted conditionally, as hereinbefore specified, when the deficiency must be made up before the student begins the second annual medical course counted toward the degree.

This act took effect March 21, 1896, *except that the increase in the required course of medical study from three to four years does not take effect till January* 1, 1898, *and does not apply to students who matriculate before that date and receive the degree of M.D. before January* 1, 1902.

Notes on the Preliminary Education Requirement.

The regents will accept as fully equivalent to the required academic course any one of the following:

(*a*) A certificate of having successfully completed at least one full year's course of study in the collegiate department of any college or university, registered by the regents as maintaining a satisfactory standard.

(*b*) A certificate of having passed in a registered institution examinations equivalent to the full collegiate course of the freshman year or to a completed academic course.

(*c*) A regents' diploma.

(*d*) A certificate of graduation from any registered gymnasium in Germany, Austria or Russia.

(*e*) A certificate of the successful completion of a course of five years in a registered Italian *ginnasio* and three years in a *licco*.

(*f*) The bachelor's degree in arts or science, or substantial equivalent from any registered institution in France or Spain.

(*g*) Any credential from a registered institution or from the government in any foreign state or country which represents the completion of a course of study equivalent to graduation from a registered New York high school or academy or from a registered Prussian gymnasium.

Extracts from Rules.

Order of Studies.—There is no restriction in the order in which studies may be taken. Advanced students who have come from other states, or who, for other reasons, have not passed in elementary subjects, may take them at any time—*e. g.*, arithmetic after algebra or geometry. English composition after rhetoric, etc.

Time Limit.—There is no limit of time, but all credentials issued by the University are good till cancelled for cause. Studies necessary to obtain any credential may be passed at different examinations.

Notes on the Professional Requirements.

1. Seventy-five per cent. of correct answers is required in all subjects.
2. All subjects must be passed at the same examination.

Note.—When a canditate for license has been rejected in but *one* topic and his average is at least 80, at subsequent examinations he shall be examined only in the topic in which he originally failed to receive the required (75) percentage.

3. All examinations must be conducted in the English language.
4. Medical preparatory courses, as such courses are now taught in various scientific schools and colleges, cannot be accepted for one year of the medical study required by the law.

POWERS AND DUTIES OF COUNTY CLERKS IN REGISTERING LICENSES TO PRACTICE MEDICINE IN NEW YORK STATE.

The laws relating to registration of physicians by county clerks were repealed May 9, 1893, when the new law took effect. The law forbids the registration of any authority to practice medicine except a license or diploma issued or indorsed as a license under seal by the University of the State of New York, or (in case of removal to another county of a physician already licensed) a certificate clearly showing that the original registration was of an authority issued or indorsed under seal by the regents.

To provide against penalties for illegal registration, all other cases should be referred to the University of the State of New York, the only authority by which licenses can be issued after September 1, 1891.

AMMONOL

THE STIMULANT · ANALGESIC · ANTIPYRETIC · ETHICAL

Is an Ammoniated-Phenylacetamide product of Coal Tar, and differs from the numerous similar products in that it contains Ammonia in active form. As a result of this **AMMONOL** possesses marked stimulating and expectorant properties. The well-known cardiac depression induced by other Antipyretics has frequently prohibited their use in otherwise suitable cases. The introduction of a similar drug, possessed of stimulating properties, **is an event of much importance.** **AMMONOL** possesses marked anti neuralgic properties, and it is claimed to be especially useful in cases of dysmenorrhœa.—*The Medical Magazine, London.*

AMMONOL behaves as a stimulant as well as an antipyretic and analgesic, thus differing from other coal-tar products. It has been used in the relief of rheumatism and neuralgic pains, and in the treatment of the sequelæ of alcoholic excess. **AMMONOL** is also prepared in the form of salicylate, bromide and lithiate The presence of Ammonia in a more or less free state gives it additional properties as an expectorant diuretic and corrective of hyperacidity.—*London Lancet.*

Ammonol may be obtained from all Leading Druggists.

Charity Organization Society of the City of New York. Offices in the United Charities Building, 105 E. 22d st. Organized 1882. Objects: To be a centre of intercommunication between the various churches and charitable agencies in this city. To foster harmonious co-operation between them, and to check the evils of the overlapping of relief. To investigate thoroughly and without charge the cases of all applicants for relief which are referred to the Society for inquiry, and to send the persons having a legitimate interest in such cases full reports of the results of investigation. To provide visitors who shall personally attend cases needing counsel and advice. To obtain from the proper charities and charitable individuals suitable and adequate relief for deserving cases. To procure work for poor persons who are capable of being wholly or partially self-supporting. To repress mendicity by the above means and by the prosecution of imposters. To promote the general welfare of the poor by social and sanitary reforms, and by the inculcation of habits of providence and self-dependence. It is not an almsgiving society, and its work is completely severed from all questions of religion, politics and nationality. It is a clearing house of registration and experience for all the charitable activities of the metropolis. It has already instituted its system of exchange of information between its constituent societies (which includes all which will avail themselves of its services), and returns are received from the Department of Public Charities and Correction, sixty-four of the leading relief societies, fifty-five prominent institutions, and two hundred and three church societies, while other societies are being frequently added. It has records of 175,000 families who have applied for relief during the last ten years. The Society has now on active duty, in its district work, in personal service for the poor, 25 paid agents, 175 members of district committees, and about 50 friendly visitors.

THE NEW YORK SOCIETY
FOR THE
RELIEF OF WIDOWS AND ORPHANS
OF MEDICAL MEN.

INSTITUTED 1842. INCORPORATED APRIL 18, 1843.

Annual members pay an initiation fee of $25, and $10 dues in semi-annual payments. Any person paying $100 at one time becomes a member for life, and $250, and upward, a benefactor. Members of the regular medical profession, residing in New York, Kings, Queens, Richmond and Westchester Counties, who are in good health, are eligible for election as members.

Persons Entitled to Relief: 1. The widow of a member whose income does not exceed eight hundred dollars per annum. If said widow shall marry again, her annuity shall cease. 2. Children of a member, males under sixteen and females under eighteen years of age and unmarried, and where the mother's income is not more than two hundred dollars per annum for each child respectively, in addition to the eight hundred dollars above mentioned. 3. Orphans of a member, males under sixteen, and females under eighteen years of age and unmarried, whose income does not exceed two hundred dollars per annum. Every child, on arriving at the age when the annuity ceases, shall receive the sum of one hundred dollars as an outfit. In cases of prolonged ill health, or other extraordinary circumstances, the assistance granted to the surviving children of members may be extended beyond the limits of sixteen and eighteen years respectively. An aged mother, father or sister dependent on a member may receive assistance after a member's death. The marriage of the widow shall not invalidate the claims of the children to assistance from the Society. No one shall be entitled to claim assistance from the Society unless the person by virtue of whose membership the claim is made has been a member for the two years previous to his death.

Every widow of a member shall be entitled to four hundred dollars per annum, but for every ten dollars or multiple of ten dollars, of income, an amount fully equal to fifty per cent. of said income shall be deducted from the annuity. Every child entitled to relief shall receive one hundred dollars per annum, subject to the same reduction of fifty per cent. of income as above. When there are full orphans, then each case shall be specially investigated by the Standing Committee, and the amount fixed for every year, according to the circumstances of the case.

Total assets of the Society, October 6, 1897, $225,615.44.

OFFICERS.—Charles A. Leal, Pres.; A. B. Judson, E. Herrick, D. Webster, Vice-Pres'ts; A. F. Currier, Sec; Henry Tuck, Treas.

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the date of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

CONTAGIOUS DISEASES.

REGULATIONS OF THE BOARD OF HEALTH.

SECTION 98.—1. Whenever it becomes known to the principal or teacher in charge of a school that a contagious disease prevails in a house, other than a tenement, in which a child or children attending the school lives or live, such child or children shall be immediately excluded from the school, and shall not be readmitted except as elsewhere in this section provided.

2. Whenever the principal or teacher in charge ascertains that a contagious disease other than small-pox or typhus fever exists in a tenement house, but on one floor only, a child or children living on another floor of the same house need not for this reason be excluded, but children thus situated must be questioned daily about their health and that of their respective families, and must be sent home at the first symptom of illness or the first intelligence of contagion in their families.

3. But if a contagious disease of any description exists on more than one floor of a tenement house, or if the disease existing on only one floor be small-pox or typhus fever, all children living in the house must be promptly excluded from the school.

4. Children excluded in pursuance of the above rules shall not be again permitted to attend school—

In case of scarlet fever, until three weeks after the *beginning* of the last case, on the floor or in the house, according to whether the exclusion has applied to the floor or an entire house under the above rules.

In case of measles, until two weeks after the *beginning* of the last case, on the floor or in the house, according to the extent of exclusion.

In case of diphtheria, until one week after the *termination* of the last case, on the floor or in the house, according to the exclusion.

In case of scarlet fever, measles or diphtheria, until a certificate of the Board of Health is produced, stating that the apartments, bedding, and clothing affected by contagion have been properly disinfected.

If the disease be small-pox or typhus fever, children who have been in such a case excluded must not resume their attendance without producing a certificate from the Board of Health stating it is safe for them to do so.

5. New scholars applying for admission, living in houses or on floors where a contagious disease prevails, must be admitted or excluded in compliance with the above rules.

6. Principals and teachers in charge are required to communicate to the clerk of the Board of Education any information received by them relevant to this subject not known to be in his possession.

7. Hereafter all children attending the schools under the control of this Board, and residing in orphan asylums, infirmaries, homes, nurseries, or other institutions, shall regularly furnish to their respective principals weekly certificates signed by a duly licensed and competent physician of good standing, to the effect that during the week preceding the date of such certificate there were no contagious or infectious diseases of any kind in such asylum, infirmary, home, nursery, or institution, and no principal shall allow the attendance at school of any such children unless such certificate herein required is furnished as aforesaid; and all such certificates shall be preserved by said principals for one year.

8. If the certificate should show that there was any such disease in such orphan asylum, infirmary, home, nursery, or institution, or if any principal should, from any other source, ascertain the existence of any such disease in any such orphan asylum, infirmary, home, nursery, or institution, such principal shall forthwith dismiss from attendance all pupils residing in such orphan asylum, infirmary, home, nursery, or institution, and such pupils shall not be allowed to attend until authorized by the committee on By-Laws, Elections, and Qualifications of the Board of Education.

STAMMERING.

THE BRYANT SCHOOL

FOR STAMMERERS.

For the Correction of Stammering and other Affections of Speech where Drill in Articulation and the Technique of Speech are Indicated.

AS MUCH of the speech apparatus is under control of the will, considerable may be done for those who suffer from speech defects, by a careful training of the respiratory, vocal and articulating organs. This training is given under the direction of a physician with eighteen years' experience. The profession may rely upon having the best treatment known for those who apply to them. Such remedies for nervous and physical conditions as directed by the patient's physician may also be used. The circular, "How We Treat Stammering To-day," giving outline, information and references from eminent men and pupils, sent to any address mentioned.

F. A. BRYANT, M.D., 9 West 14th St., New York.

Exercise ACTIVE AND PASSIVE,

As a Therapeutic Agent.

DR. WATSON L. SAVAGE is prepared to co-operate with physicians having patients who need personally directed and scientifically administered exercise.

In the following groups this has proven most beneficial: MUSCULAR DEFORMITIES, ERRORS OF NUTRITION, CHRONIC CONSTIPATION, NERVOUS CONDITIONS, GENERAL DEBILITY; or ANY CHRONIC CONDITION not yielding to other forms of treatment.

Physicians will please remember that the department for special cases needing individual attention is entirely separate from the general gymnasium. The patients are not exercised in classes, as every case is different and each has a prescribed course.

We issue no circular of the medical work.

Circulars of the Gymnasium on application.

The system of instruction embraces a thorough Didactic and Clinical Course of three years' attendance. The American Veterinary Hospital, which is a branch of the College, has treated since its opening over 50,000 cases. It is utilized for the clinical instruction of matriculates, and affords unrivalled facilities.

The regular term opens in the beginning of October, and closes at end of March. For further information or catalogue, address A. LIAUTARD, M.D., V.M., Dean of the Faculty, 139 and 141 West 54th Street.

REQUIREMENTS FOR GRADUATION.

CHAPTER 443, LAWS OF 1888.

Section 5. The said trustees and their successors shall have the power to confer the degree of Doctor of Veterinary Surgery and issue veterinary diplomas to only such students as shall have attained the age of twenty-one years, shall be of good moral character, shall have received a good English education, and pursued at least a full three years' course of medical and veterinary study after the age of eighteen years, *including* attendance upon *three regular sessions of medical and veterinary lectures* in a regularly incorporated veterinary college or veterinary or medical department of a college or university, the last of which sessions of study shall have been at said American Veterinary College, and shall have passed the examination prescribed by the rules and regulations of the American Veterinary College.

Graduates of incorporated *medical* colleges and graduates of veterinary medicine will be required to attend one regular session of lectures in this College.

Graduates of agricultural colleges will have an allowance made them for such branches as they may have attended on subjects embraced in the curriculum of this College (viz.: the fees of such lectures), provided they can pass a satisfactory examination on said branches *immediately after matriculating*. The same privileges are granted to regular graduates of colleges of pharmacy.

Long Island College Hospital

HOAGLAND LABORATORY, AND POLHEMUS MEMORIAL CLINIC,

Session 1898-'99. NEW YORK CITY.

The Regular Term will commence October 3, 1898.

In the Hospital and Dispensary, 23,000 patients were treated in the past year. Two to three hours are daily devoted to Clinical Teaching and Physical Diagnosis. Quizzes are held by the Professors and their assistants throughout the course, without cost. Students also receive instruction at the Eye and Ear Hospital (14,000 patients annually treated), and at the Brooklyn Hospital (3,000). The resident staffs of these, and of St. John's, St. Mary's, St. Catherine's, Methodist Episcopal, Kings County and other Hospitals of New York and Brooklyn, also the Surgeons of the City Ambulance service, are appointed annually, and the positions are open to the graduates of the Long Island College Hospital.

Special instruction is given in Gynecology, Diseases of the Eye, Ear, Throat, Nose, Skin, and Nervous System. Practical Obstetrics are taught by daily exercises on the Manikin, including all the operative procedures, forceps, version, etc., and by attendance on cases of confinement in the wards of the Maternity and Out-door Obstetric Service. In the Hoagland Laboratory instruction is given in Bacteriology, Microscopy, and Pathology.

FEE.—Matriculation for the Collegiate year, $5; Lectures and Clinics of Regular Term, $150; Graduation, $25.

Good board can be had in Brooklyn for $5 a week.

For particulars as to lectures, clinics, and fees, send for Annual Announcement to J. H. RAYMOND, M. D., Secretary of Faculty, Long Island College Hospital, Brooklyn, N. Y.

Bensolyptus

Alkaline Antiseptic and Prophylactic.

Bensolyptus is an agreeable alkaline solution of various highly approved antiseptics, so combined that one supplements the action of the other. Its ingredients are all of recognized value in the treatment of

Catarrhal Affections

because of their cleansing, soothing and healing properties. Bensolyptus is highly recommended in all diseases of the nose and throat, both acute and chronic, and as a mouth-wash and dentifrice. It is also indicated for internal use in affections of the stomach and intestines where an agreeable, unirritating, and efficient antiseptic and antifermentative is required.

The Linke Patent A. & A. Self-Cleaning Stone Filters.

Scientific Men Declare the Linke Filters GERM PROOF.

The stone used in the Linke Filter is the Tripoli stone, mined in Missouri. Dr. Amand Ravold, a distinguished chemist of St Louis, after a series of tests of water filtered through this stone says:

"I have the honor to report that the result of the Bacteriological Investigation of the Filter placed by you in the Chemists' Laboratory, show that in a series of platings, made from February 1st to February 20th, 1896, absolutely no pathogenic (disease-producing) Bacteria were found in the water filtered by it."

Our method produces a constant new filtering surface on stone, and Filter is washed clean for every filtration without taking apart. Stone remains sealed until worn out.

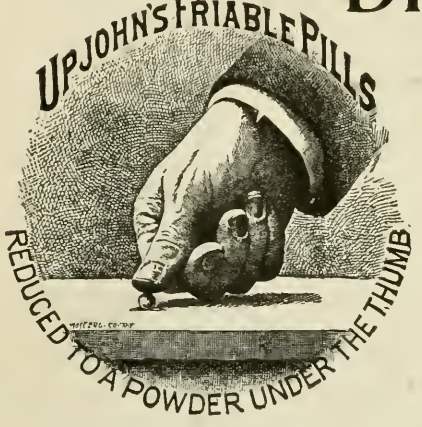
Friability

IN A PILL INSURES

Digestibility.



We do not claim to change the peculiarities of a powdered drug or chemical as to its solubility by encasing it in a thin shell of "soluble" coating. We do claim, however, that drugs so exhibited are in a form offering least resistance to assimilation. Friability increases the OPPORTUNITY for quick solution and digestion, and as such it represents the acme of pill perfection.
